

## Virtual Show 2021 notes

Full views of owners and handlers should not appear in the photographs. The photos will be anonymised before being transmitted to the Judge. Unlike last year, goats may be in a show prepared condition, (i.e. washed but with no conditioner), as opposed to 'from the field' condition.

Examples of the photographs are given below, as well as some photos of what to avoid when photographing your goats.

Try to photograph your goat from the goats height, rather than by looking down on the goat. Getting the goat to stand square on its legs shows off its shape better. Avoid photographing them in full sunlight."

**Examples of the 4 photographs required. Side, Front, Rear and 2<sup>nd</sup> side showing the inside of the fleece**

Examples of photographs showing the goat poorly displayed
